

INGENIUM 10 Week Accelerator Program in Innovation Management & Entrepreneurship

Munster Technological University, the University of Crete & the University of Oviedo have worked together to bring a brand-new Innovation Management & Entrepreneurship Accelerator Program to students & staff of the 10 INGENIUM Universities.

Course participants will gain the knowledge and practical skills needed to turn creative ideas into real business value. Take this opportunity to learn skills in validating a business idea, market research, intellectual property, financing, sustainable business, strategy and much more!

Learn from subject matter experts across the [INGENIUM University Alliance](#). On successful completion of this course, you will receive an INGENIUM Digital Badge.
